Certificate of Completion

- Mr. Toucan is so hungry! Count how much fruit he's eaten.
- Subtract and tell how many are left.
- Write your answers in the space provided.

$$1 - 1 = \square$$

$$1 - 1 = \square$$

$$4 - 2 = \square$$

$$4 - 2 = \square$$

$$3 - 2 = \square$$

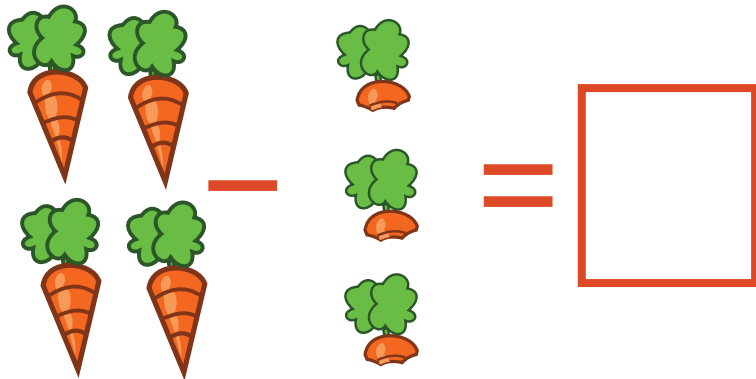

$$3 - 2 = \square$$

$$6 - 3 = \square$$

$$6 - 3 = \square$$

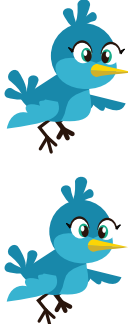

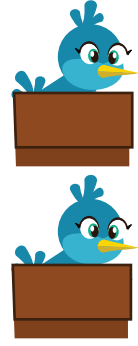

- Mrs. Hamster is cooking! Count how many veggies she's used.
- Subtract and tell how many are left.
- Write your answers in the space provided.

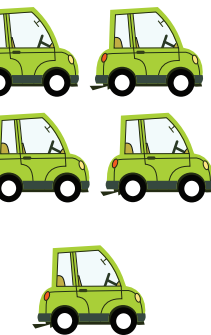

- Joey is selling his toys! Count how many toys he's sold.
- Subtract and tell how many are left.
- Write your answers in the space provided.

- Ben dropped his jelly beans! Count how many he's dropped.
- Subtract and tell how many are left.
- Write your answers in the space provided.

$$\begin{array}{c}
 \text{9 red jelly beans} \\
 - \text{2 red jelly beans} \\
 \hline
 \square
 \end{array}$$

$$\begin{array}{c}
 \text{9} \\
 - \text{3} \\
 \hline
 \square
 \end{array}$$

$$\begin{array}{c}
 \text{8 blue jelly beans} \\
 - \text{4 blue jelly beans} \\
 \hline
 \square
 \end{array}$$

$$\begin{array}{c}
 \text{7} \\
 - \text{5} \\
 \hline
 \square
 \end{array}$$

$$\begin{array}{c}
 \text{10 green jelly beans} \\
 - \text{4 green jelly beans} \\
 \hline
 \square
 \end{array}$$

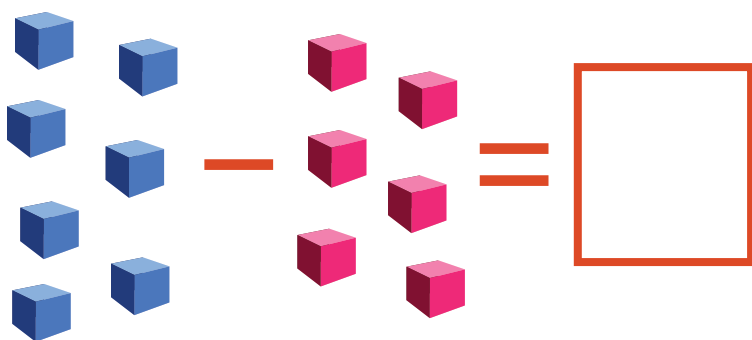

$$\begin{array}{c}
 \text{9} \\
 - \text{6} \\
 \hline
 \square
 \end{array}$$

$$\begin{array}{c}
 \text{10 purple jelly beans} \\
 - \text{5 purple jelly beans} \\
 \hline
 \square
 \end{array}$$

$$\begin{array}{c}
 \text{9} \\
 - \text{4} \\
 \hline
 \square
 \end{array}$$

- Abi is coloring her blocks! Count how many she's colored.
- Subtract and tell how many are left.
- Write your answers in the space provided.

- When you take away 1 from a number the result is the number before that.
- Use the number line to **count back** to help you subtract the numbers.
- Write your answers in the space provided.

$10 - 1 = \square$	$8 - 2 = \square$	$7 - 1 = \square$
$8 - 1 = \square$	$4 - 1 = \square$	$3 - 1 = \square$
$6 - 1 = \square$	$5 - 1 = \square$	$9 - 2 = \square$
$1 - 1 = \square$	$2 - 1 = \square$	$9 - 1 = \square$

- When you take away 1 from a number the result is the number before that.
- Use the number line to **count back** to help you subtract the numbers.
- Write your answers in the space provided.

$10 - 2 = \square$	$9 - 2 = \square$	$4 - 2 = \square$
$9 - 3 = \square$	$2 - 2 = \square$	$7 - 3 = \square$
$8 - 2 = \square$	$5 - 2 = \square$	$3 - 2 = \square$
$7 - 2 = \square$	$8 - 3 = \square$	$6 - 2 = \square$

★ SHAPE SUBTRACTION ★

- Count all the objects in the group.
- Cross out 2 objects in each group to show how many you are subtracting.
- Count how many are left and write the answer.

SCHOOL SUPPLIES SUBTRACTION

- Count all the objects in the group.
- Cross out 3 objects in each group to show how many you are subtracting.
- Count how many are left and write the answer.

SPORT SUBTRACTION

- Count all the objects in the group.
- Cross out 4 objects in each group to show how many you are subtracting.
- Count how many are left and write the answer.

$$8 - 4 =$$

$$7 - 4 =$$

$$6 - 4 =$$

$$5 - 4 =$$

$$4 - 4 =$$

VEHICLE SUBTRACTION

- Count all the objects in the group.
- Cross out 5 objects in each group to show how many you are subtracting.
- Count how many are left and write the answer.

ANIMAL SUBTRACTION

- Count all the objects in the group.
- Cross out 6 objects in each group to show how many you are subtracting.
- Count how many are left and write the answer.

A subtraction problem featuring octopuses. On the left, there are two rows of five pink octopuses each. To the right is a dotted number 10, followed by a minus sign, a dotted number 6, and an equals sign. To the right of the equals sign are three horizontal lines for writing the answer: a solid top line, a dashed middle line, and a solid bottom line.

A subtraction problem featuring toucans. On the left, there are two rows of five colorful toucans each. To the right is a dotted number 10, followed by a minus sign, a dotted number 6, and an equals sign. To the right of the equals sign are three horizontal lines for writing the answer: a solid top line, a dashed middle line, and a solid bottom line.

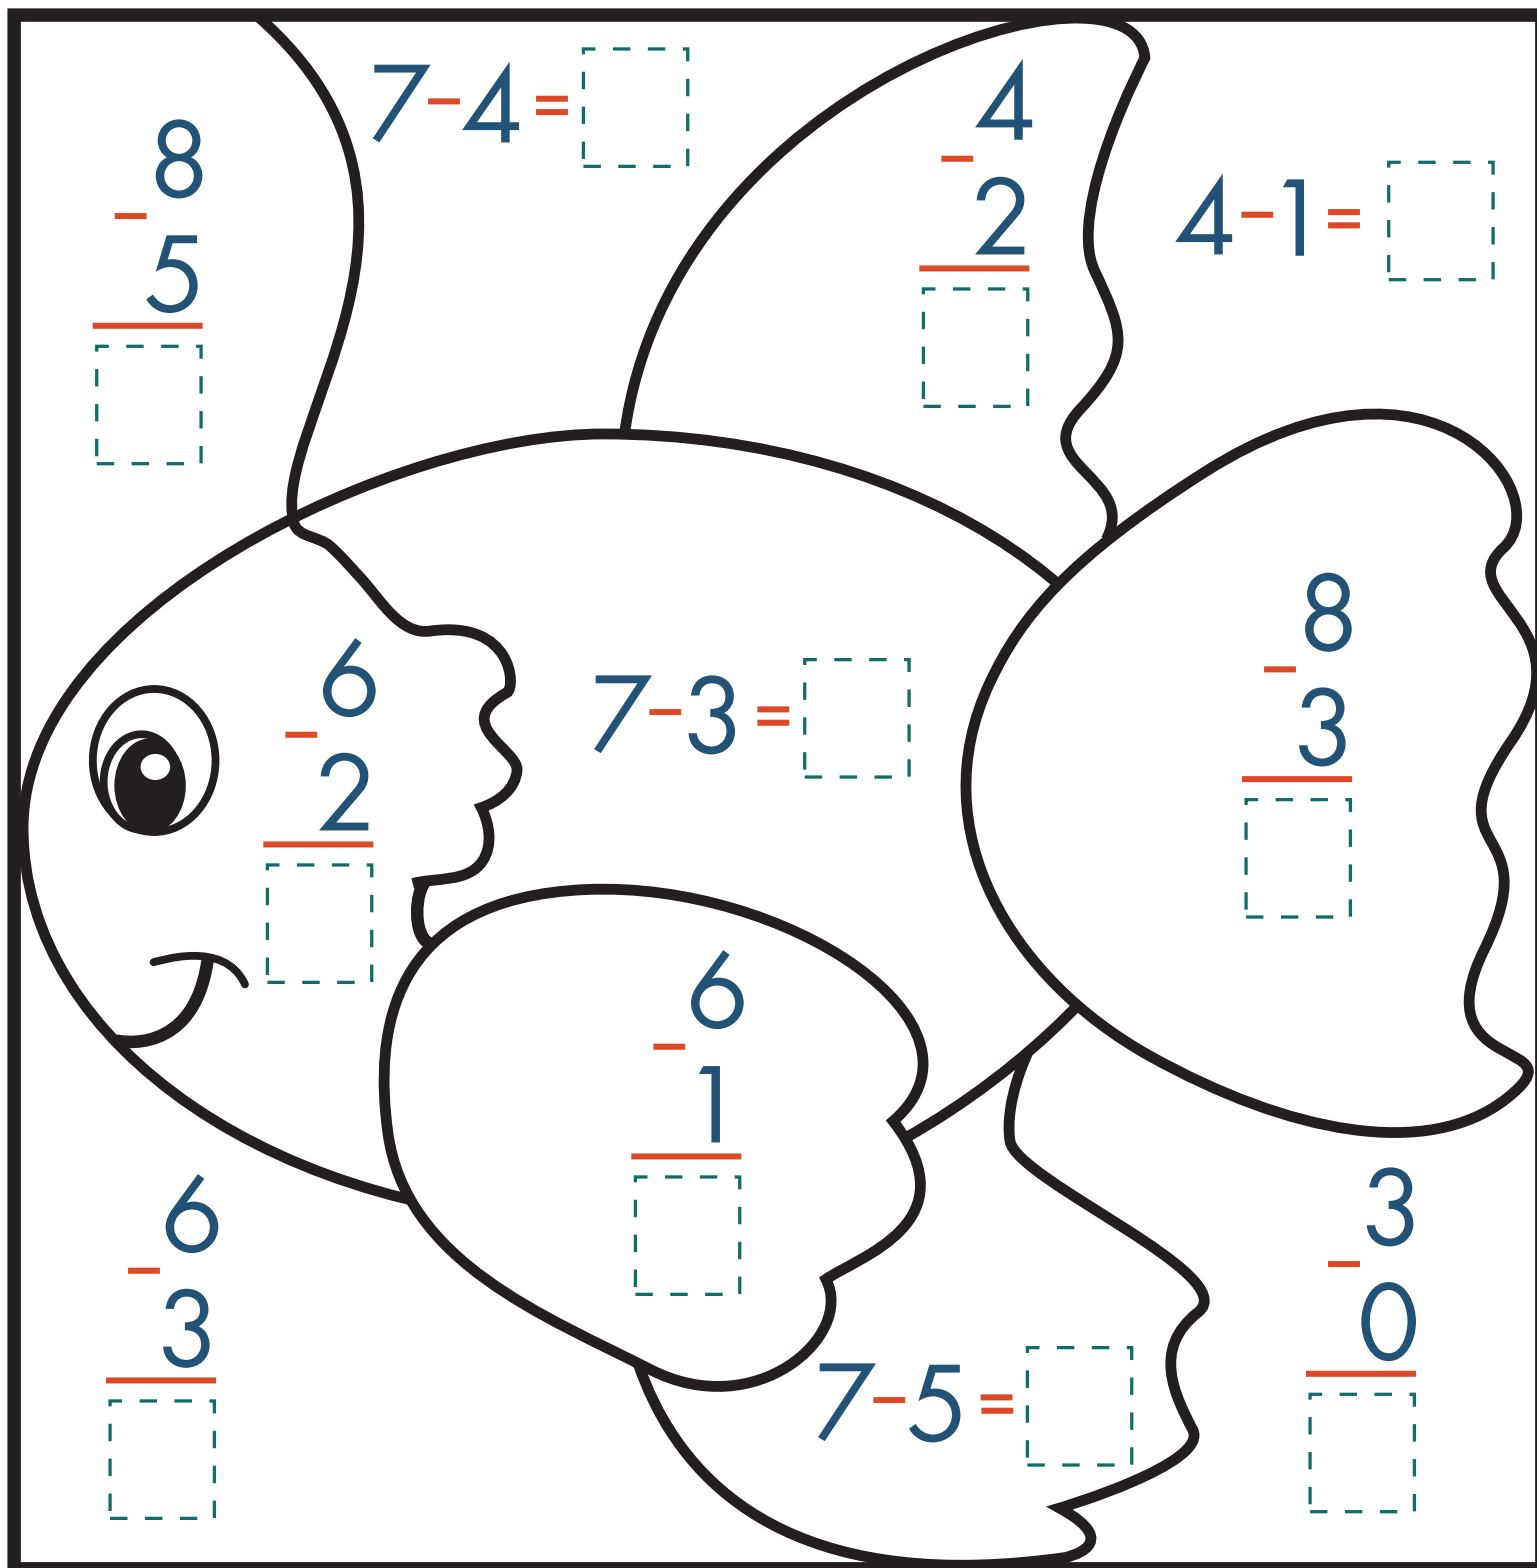

A subtraction problem featuring cats. On the left, there are three rows of blue cats: the first two rows have three cats each, and the third row has two cats. To the right is a dotted number 8, followed by a minus sign, a dotted number 6, and an equals sign. To the right of the equals sign are three horizontal lines for writing the answer: a solid top line, a dashed middle line, and a solid bottom line.

A subtraction problem featuring rabbits. On the left, there are two rows of brown rabbits: the first row has five rabbits and the second row has four rabbits. To the right is a dotted number 9, followed by a minus sign, a dotted number 6, and an equals sign. To the right of the equals sign are three horizontal lines for writing the answer: a solid top line, a dashed middle line, and a solid bottom line.

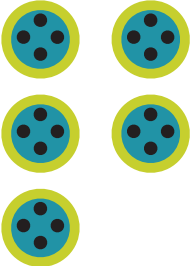

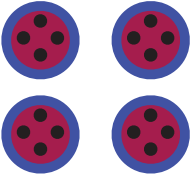

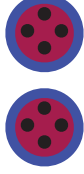

A subtraction problem featuring owls. On the left, there are two rows of blue owls: the first row has three owls and the second row has three owls. To the right is a dotted number 6, followed by a minus sign, a dotted number 6, and an equals sign. To the right of the equals sign are three horizontal lines for writing the answer: a solid top line, a dashed middle line, and a solid bottom line.

SUBTRACTION

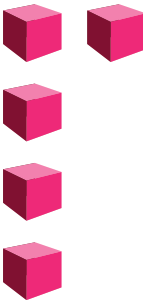

- Can you see what's in this picture?
- Let's add some color by completing the subtractions.
- If the answer is 2 color the space orange, 3 color it blue, 4 color it green, and if it is 5 color it yellow.

- Let's play hide and seek subtraction.
- Write your answers in the teal box.

How many buttons are there?	If I hide some under the bowl...	How many are left over?	Draw how many are hiding.
 <input data-bbox="407 828 538 978" type="text"/>		 <input data-bbox="1184 828 1315 978" type="text"/>	<input data-bbox="1576 828 1707 978" type="text"/>
 <input data-bbox="407 1189 538 1338" type="text"/>		 <input data-bbox="1184 1189 1315 1338" type="text"/>	<input data-bbox="1576 1189 1707 1338" type="text"/>
 <input data-bbox="407 1552 538 1701" type="text"/>		 <input data-bbox="1184 1552 1315 1701" type="text"/>	<input data-bbox="1576 1552 1707 1701" type="text"/>
 <input data-bbox="407 1907 538 2057" type="text"/>		<input data-bbox="1184 1907 1315 2057" type="text"/>	<input data-bbox="1576 1907 1707 2057" type="text"/>

- Let's play hide and seek subtraction.
- Write your answers in the teal box.

How many blocks are there?	If I hide some under the bowl...	How many are left over?	Draw how many are hiding.
 <input data-bbox="407 828 538 978" type="text"/>		 <input data-bbox="1186 828 1317 978" type="text"/>	<input data-bbox="1576 828 1707 978" type="text"/>
 <input data-bbox="407 1189 538 1338" type="text"/>		 <input data-bbox="1186 1189 1317 1338" type="text"/>	<input data-bbox="1576 1189 1707 1338" type="text"/>
 <input data-bbox="407 1547 538 1696" type="text"/>		 <input data-bbox="1186 1547 1317 1696" type="text"/>	<input data-bbox="1576 1547 1707 1696" type="text"/>
 <input data-bbox="407 1907 538 2057" type="text"/>		 <input data-bbox="1186 1907 1317 2057" type="text"/>	<input data-bbox="1576 1907 1707 2057" type="text"/>

- Let's play hide and seek subtraction.
- Write your answers in the teal box.

How many beans are there?	If I hide some under the bowl...	How many are left over?	Draw how many are hiding.
 <input data-bbox="407 828 538 978" type="text"/>		 <input data-bbox="1188 828 1319 978" type="text"/>	<input data-bbox="1576 828 1707 978" type="text"/>
 <input data-bbox="407 1189 538 1338" type="text"/>		 <input data-bbox="1188 1189 1319 1338" type="text"/>	<input data-bbox="1576 1189 1707 1338" type="text"/>
 <input data-bbox="407 1549 538 1699" type="text"/>		 <input data-bbox="1188 1549 1319 1699" type="text"/>	<input data-bbox="1576 1549 1707 1699" type="text"/>
 <input data-bbox="407 1910 538 2059" type="text"/>		 <input data-bbox="1188 1910 1319 2059" type="text"/>	<input data-bbox="1576 1910 1707 2059" type="text"/>

- Read each word problem.
- **Underline** clue words that help you know if you are supposed to add or subtract.
- Use the space under each word problem to draw out pictures to help you solve the number sentence.

If there are 3 boys playing soccer, and 2 decide to go to the playground, how many boys are left over playing soccer?

$$\square - \square = \square$$

4 girls are swimming in the pool. Then 1 girl goes to play on the grass. How many girls are left over at the pool?

$$\square - \square = \square$$

2 kids are playing basketball. Both of them decide it is time for tennis. How many kids are left over playing basketball?

$$\square - \square = \square$$

- Read each word problem.
- **Underline** clue words that help you know if you are supposed to add or subtract.
- Use the space under each word problem to draw out pictures to help you solve the number sentence.

Ben has 6 bunnies. He gave 4 away. How many bunnies are left over?

$$\square - \square = \square$$

Abi has 2 hamsters. Then 1 of them ran to the closet. How many does she have remaining?

$$\square - \square = \square$$

We had 5 pigs. Mom took 3 pigs to the farm. How many pigs are left over?

$$\square - \square = \square$$

- Read each word problem.
- **Underline** clue words that help you know if you are supposed to add or subtract.
- Use the space under each word problem to draw out pictures to help you solve the number sentence.

4 bees were flying about. 2 went to make honey. How many bees are there remaining?

$$\square - \square = \square$$

7 caterpillars were eating leaves. 3 turned into butterflies. How many caterpillars are left over?

$$\square - \square = \square$$

8 ladybugs were playing with paint. Then six painted their wings purple. How many red ladybugs are left over?

$$\square - \square = \square$$

Great job!

is an ThuVienTiengAnh.Com math superstar
