

Add the 10s First!

Add these two-digit numbers together by adding the 10s first!
After you add the 10s you can add the 1s to find your final answer.

Example:

$$47 + 35 = \underline{\quad 82 \quad}$$

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30

Diagram illustrating the addition of 47 and 35 using a hundred chart. The number 47 is circled in red. Red arrows show the path: from 47 to 46 (+10), then to 57 (+10), then to 67 (+10), then to 77 (+10), then to 78 (+1), then to 79 (+1), and finally to 80 (+1). The numbers 57, 67, 77, 78, 79, and 80 are shaded green. The final sum, 82, is also shaded green.
