

Math Lab: Addition #1

ANSWER KEY

Add the numbers on each formula.

Fill in the + and = symbols, then write the sum.

$$10 + 5 = 15$$

$$8 + 4 = 12$$

$$9 + 9 = 18$$

$$6 + 7 = 13$$

Write the missing number to equal the sum on each scanner.

$$8 + 6 = 14$$

$$3 + 9 = 12$$

$$9 + 7 = 16$$

$$11 + 8 = 19$$

Circle the two formulas that when added will equal the sum of 15.
