What?	Refers to specific information about a thing	Why?	Refers to the reason
When?	Refers to time or occasion	How?	Refers to the way something is done

Directions: Read the passage. Answer the questions by completing the sentence stems and frames.

Antarctica is a continent that is on the South Pole. Most of Antarctica is covered in ice. It is the coldest, driest, and windiest continent.

Humans go to Antarctica to explore it. They go on a boat or a plane to get there. People go on vacation to see the continent. Scientists go to focus on learning about the animals and plants that live there. Not many animals live there, but you can find penguins that roam near the water. Only a few types of plants grow there. They usually grow in the summer.

Scientists concentrate on learning about the weather, animals, land, and the ice. To protect Antarctica, there are laws that ban animal hunting. It is important to take care of the continent.

1. Who goes to Antarctica to learn?
