

AREA OF A TRIANGLE #1

You can find the area of any triangle using the formula $A = \frac{1}{2}bh$, where b is the base of the triangle and h is the height of the triangle.

Try it! Find the area of each triangle.

1.

$$A = \underline{30 \text{ ft.}^2}$$

2.

$$A = \underline{48 \text{ cm}^2}$$

3.

$$A = \underline{42 \text{ in.}^2}$$

4.

$$A = \underline{81 \text{ mm}^2}$$

5.

$$A = \underline{77 \text{ mm}^2}$$

6.

$$A = \underline{60 \text{ ft.}^2}$$

7.

$$A = \underline{11 \text{ in.}^2}$$

8.

$$A = \underline{7.2 \text{ cm}^2}$$
