

# Basketball - What is Multiplication?

A basketball player can score either a 2 point shot or a 3 point shot. You will be figuring out how many points some of the players on the team score by filling in the chart.

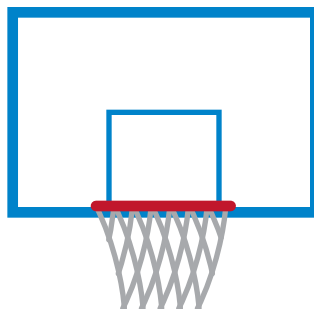

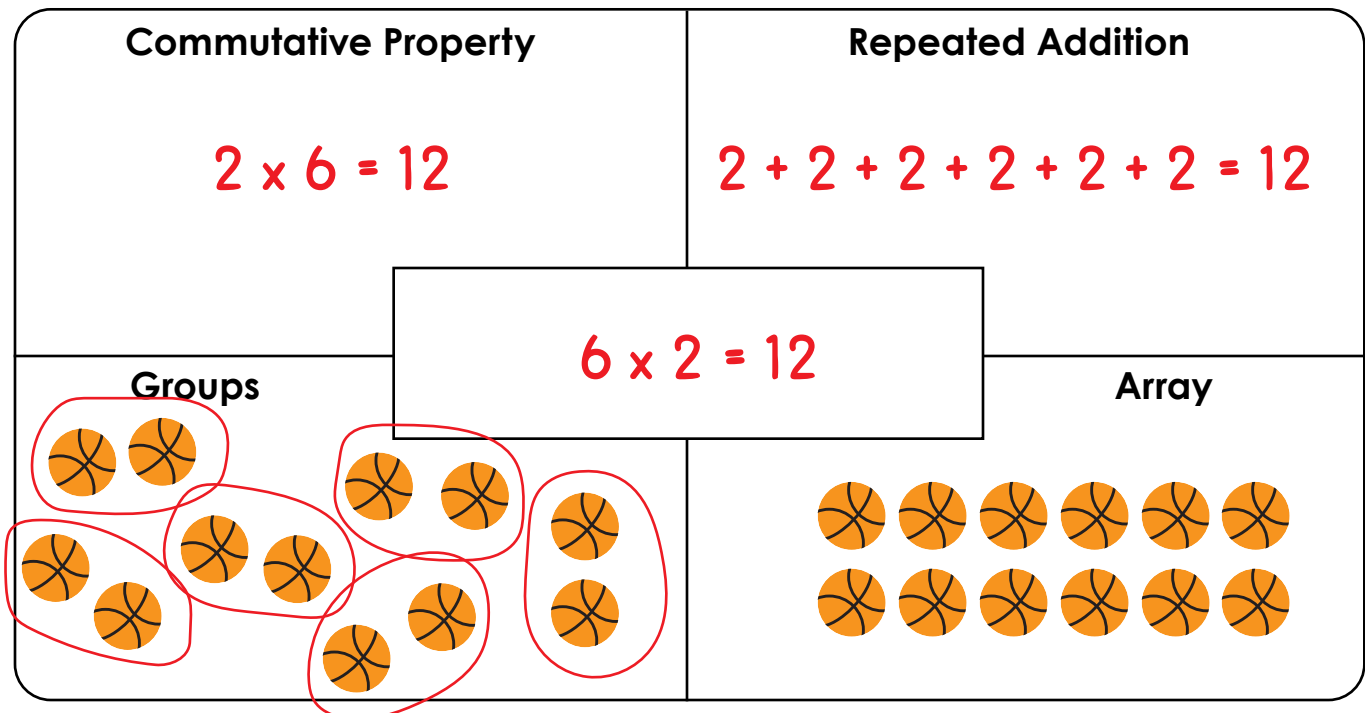

## Answers

### Example:

Francisco shot 5 baskets. Each was worth 3 points. How many points did he score?

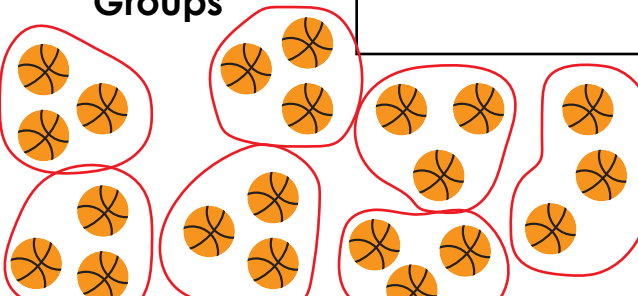

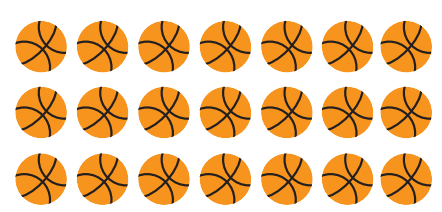

1. Heather shot 6 baskets. Each was worth 2 points. How many points did she score? Fill in the chart.

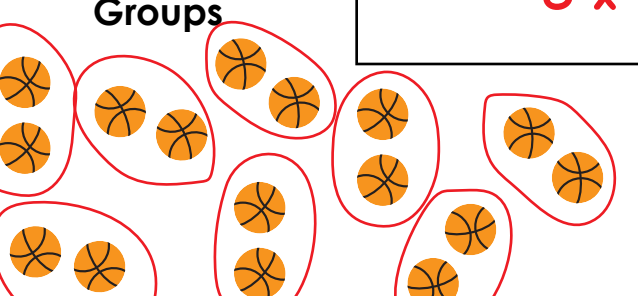

# Basketball - What is Multiplication?

2. Gerald shot 7 baskets. Each was worth 3 points. How many points did he score? Fill in the chart.

Answers

<b>Commutative Property</b> $3 \times 7 = 21$	<b>Repeated Addition</b> $3 + 3 + 3 + 3 + 3 + 3 + 3 = 21$
$7 \times 3 = 21$	
<b>Groups</b> 	<b>Array</b> 

3. Cara shot 8 baskets. Each was worth 2 points. How many points did she score? Fill in the chart.

<b>Commutative Property</b> $2 \times 8 = 16$	<b>Repeated Addition</b> $2 + 2 + 2 + 2 + 2 + 2 + 2 + 2 = 16$
$8 \times 2 = 16$	
<b>Groups</b> 	<b>Array</b>
