Subtraction and Addition

A great way to check your answer when subtracting is to add.
Calculate the difference and put the number in both circles. Check if the sum is correct.

14 - 9 = (5)   (5) + 9 = 14

55 - 14 = (41)   (41) + 14 = 55

37 - 12 = (25)   (25) + 12 = 37

22 - 8 = (14)   (14) + 8 = 22

89 - 43 = (46)   (46) + 43 = 89

63 - 17 = (46)   (46) + 17 = 63

102 - 25 = (77)   (77) + 25 = 102

41 - 20 = (21)   (21) + 20 = 41

93 - 8 = (85)   (85) + 8 = 93

114 - 37 = (77)   (77) + 37 = 114

16 - 7 = (9)   (9) + 7 = 16
