

CHECKS AND BALANCES WORKSHEET

Checks and balances is a political principle which describes how the branches of government work with each other. The Constitution of the United States established the three branches of the United States government. These branches are the executive, legislative and judicial. The President is the head of the executive branch, which enforces the laws. Congress, made up of the Senate and House of Representatives, is the head of the legislative branch which makes the laws. The judicial branch, which interprets the laws, is made up of the Supreme Court and the federal courts.
