

Compare and Order Integers

Plot the integers on the number line. Then compare the integers using $<$ or $>$.

Compare the integers using $<$ or $>$.

$134 < 143$

$47 > -50$

$-16 < -11$

$71 > -67$

$2 > -17$

$-3 < 0$

$-100 < 99$

$-14 < -5$

$-19 > -20$

Write the integers in order from least to greatest.

$10, 2, -9 \quad \underline{-9} \quad \underline{2} \quad \underline{10}$

$-7, 8, -2 \quad \underline{-7} \quad \underline{-2} \quad \underline{8}$

$-15, -29, -22 \quad \underline{-29} \quad \underline{-22} \quad \underline{-15}$

$-11, 10, 7, -3 \quad \underline{-11} \quad \underline{-3} \quad \underline{7} \quad \underline{10}$

$14, 31, -19, -16 \quad \underline{-19} \quad \underline{-16} \quad \underline{14} \quad \underline{31}$
