

Comparing Fractions on a Number Line

Order the following fractions from least to most. *Hint: Some of these fractions have equal value.*

$$\frac{2}{2} = 1$$

4 (most)

$$\frac{1}{2}$$

2

$$\frac{1}{4}$$

1 (least)

$$\frac{3}{4}$$

3

$$\frac{2}{4} = \frac{1}{2}$$

2

$$\frac{4}{4} = 1$$

4 (most)

Using the above diagrams as a reference, place the following fractions the number line below.

$$\frac{2}{4}$$

$$\frac{4}{4}$$

$$\frac{3}{4}$$

$$\frac{1}{4}$$

$$\frac{1}{2}$$

$$\frac{2}{2}$$
