# Concept Web

**Directions:** Place the word or topic in the center oval. Then, write details about the topic in the remaining ovals. Lastly, place headings at the top of each oval to give more information about your details.

**ANSWERS**

**Write about it!** Describe your concept web. Be sure to write about the central topic and the details about the topic.

In the center of my concept web, I wrote the word shark because it's my main topic.

In the detail ovals, I included facts about sharks in general. I have details about

sharks being in danger; their size, their pups, and where they live. I also included

information about cool sharks, like ones that look different and ones that are fast.
