

Division :

Find the Total Number of Objects

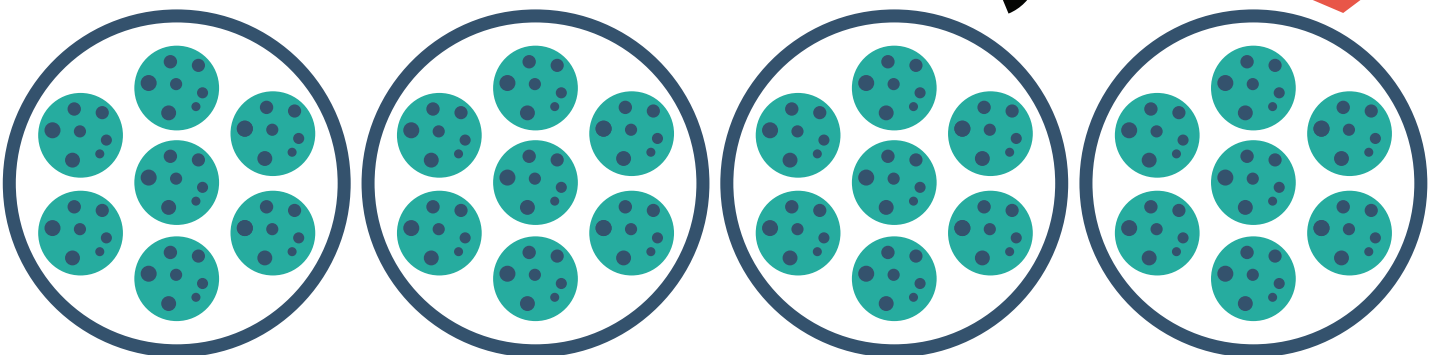

Directions: You can use division to find the number of objects in each group.

1. Divide 21 total balloons into 7 equal groups.
How many balloons are there in each group?

$$21 \div 7 = \underline{3}$$

2. Divide 28 total cookies into 4 equal groups.
How many balloons are there in each group?

$$28 \div 4 = \underline{7}$$
