

Division :

Make a Match

Directions: Draw a line from the word or phrase on the left side of the page to the phrase that best describes that word or phrase on the right side of the page.

Dividend	Count by the divisor until you get the dividend and then count up your rows.
Quotient	Count backwards by the value of the divisor.
Draw an Array	Subtract the divisor until you reach 0.
Skip Count	The number of groups that the dividend is being separated into.
Repeated Subtraction	The larger number that is being divided into smaller groups.
Divisor	The answer to a division problem.
