

Finding Slope From a Graph: Card Sort

For each graph card on pages 1 and 2, find the slope of the line. Cut out all of the cards. Then, group the graph cards with their corresponding slope cards. **Order of cards may vary.**

$$m = -2$$

$$m = -\frac{4}{5}$$

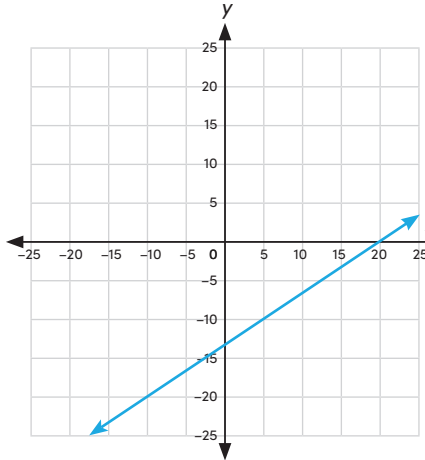

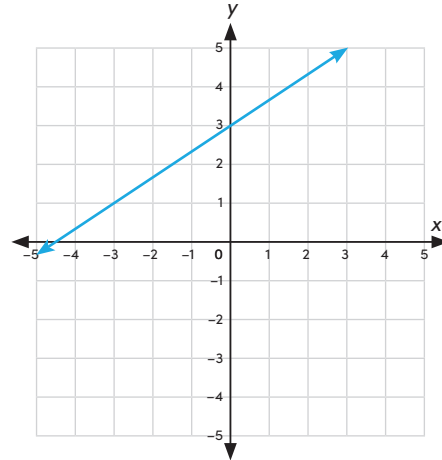

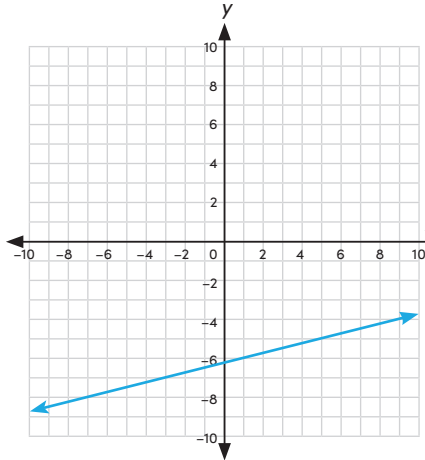

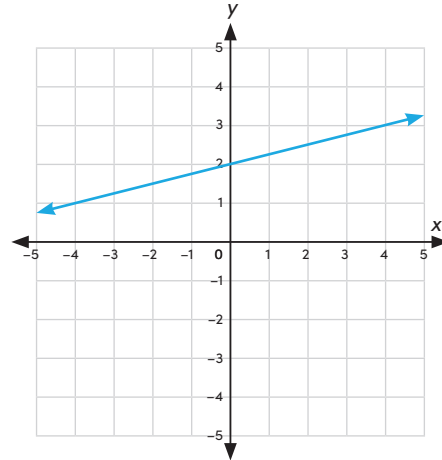

$$m = 0$$

Finding Slope From a Graph: Card Sort

For each graph card on pages 1 and 2, find the slope of the line. Cut out all of the cards. Then, group the graph cards with their corresponding slope cards. **Order of cards may vary.**

<p>$m = \frac{2}{3}$</p>		
<p>$m = \frac{1}{4}$</p>		
<p>m is undefined</p>
