

Find the Main Idea: Plants

Find the main idea in the paragraph below. Write the main idea in your own words in the space provided.

Just like humans, plants need water and food to survive. Plant food comes in the form of nutrients. Plants get nutrients from the soil. They get water and nutrients from the soil through their roots. Plants also need sun and air in order to grow. If plants don't have enough light, they will be weak and won't grow. In order to live, plants need food, water, soil, sun, and air.

Main idea:

Plants need food, water, soil, sun, and air in order to survive.
