

Follow the Clues!

Name _____

Sample Answer Sheet
(Answers will vary)

Read the story. Next, write clues from the story that you can use to make a prediction. Explain your thinking and predict what Molly will do next.

Clue #2 Evidence

Molly remembered that it was Becca's birthday and wanted to surprise her.

Clue #3 Evidence

Molly told her mom that she would need flour, sugar, and eggs.

Clue #1 Evidence

Molly got a cookbook for her birthday and it had lots of recipes like grilled cheese, pizza, and cupcakes.

It was Molly's birthday and she was so excited! She had just turned 10 years old and her mom had given her a cookbook for her birthday. She thought about what to make first. There were so many choices: pizza sliders, macaroni and cheese, grilled cheese sandwiches, and cupcakes. While she sat at the table reading the recipes, she had a great idea. Her friend Becca's birthday was in a few days and she wanted to surprise her friend with something special. Molly's mom asked her if she had decided on a recipe. "I know what I'm going to make. I will need flour, sugar, and eggs!" Molly exclaimed.

What do you think Molly will do next?

My Thinking:

My Thinking: Flour, sugar, and eggs wouldn't be used to make pizza or grilled cheese sandwiches. Since Molly talked about Becca's birthday, I think she will make cupcakes for her birthday.

I predict... that Molly and her mom will go to the store and buy the ingredients. Later on, Molly will bake cupcakes for Becca and surprise her on her birthday.
