

FOOTBALL MATH

Answers

1. At halftime, 5 of the Seahawks' 53 players have been injured. After halftime, 7 more players got injured. How many players ended the game without an injury?

Answer: $53 - 5 - 7 = 41$

2. There is a football game playing. Each quarter in a football game is 15 minutes long. If a football game has 4 quarters altogether and the teams have already completed 3 quarters, how many minutes are left in the game?

Answer: $4 - 3 = 1$, $1 \times 15 = 15$

3. So far this NFL season, 32 players have punted. There are 17 players with an average below forty-six yards, and 7 players have an average above forty-six yards. How many players have an average of forty-six yards?

Answer: $32 - 17 - 7 = 8$

4. Brandon McManus, placekicker for the Broncos, has attempted 35 field goals and 36 extra points this season. How many total kicks has he attempted?

Answer: $35 + 36 = 71$
