# FARM ANIMALS

Fraction Review

Circle the correct fraction.

1. Three out of nine of the newly hatched chicks are white. What fraction of chicks are white?

    a) $\frac{9}{3}$
    b) $\frac{6}{9}$
    c) $\frac{3}{9}$
    d) $\frac{3}{6}$

2. There are eleven piglets in the farm. Five are female. What fraction of piglets are female?

    a) $\frac{1}{2}$
    b) $\frac{5}{11}$
    c) $\frac{5}{6}$
    d) $\frac{11}{5}$

3. Four cows are spotted and seven are plain brown. What fraction of the cows are spotted?

    a) $\frac{11}{4}$
    b) $\frac{7}{11}$
    c) $\frac{4}{7}$
    d) $\frac{4}{11}$

4. Out of five horses, three are stallions. What fraction of the horses are stallions?

    a) $\frac{3}{5}$
    b) $\frac{5}{3}$
    c) $\frac{3}{8}$
    d) $\frac{5}{8}$

5. There are twenty ducks. Seven are ducklings. What fraction of the ducks are ducklings?

    a) $\frac{20}{7}$
    b) $\frac{17}{20}$
    c) $\frac{20}{27}$
    d) $\frac{7}{20}$

6. There are eight goats. Three produce milk. What fraction of the goats produce milk?

    a) $\frac{3}{11}$
    b) $\frac{11}{8}$
    c) $\frac{3}{8}$
    d) $\frac{8}{3}$
