Review: Geometry and Measurement

Perimeter is the distance around a figure.

To find the perimeter, add the length of the sides together.

$$1 \text{ in.} + 1 \text{ in.} + 2 \text{ in.} + 2 \text{ in.} + 3 \text{ in.} = 9 \text{ in. perimeter}$$

Directions: Find the perimeter (P) for each of the shapes below.

$$P = \underline{35} \text{ centimeters}$$

$$P = \underline{18} \text{ meters}$$

$$P = \underline{38} \text{ millimeters}$$

$$P = \underline{20} \text{ feet}$$

$$P = \underline{24} \text{ yards}$$

$$P = \underline{34} \text{ inches}$$

What is the perimeter of the baseball field?

$$P = \underline{112} \text{ meters}$$
