

## Let's Go Rounding!

When rounding a number to a place value, view the digit to the right of the given place.

When the digit to the right is 4 or less,  
round down in the given place.

When the digit to the right is 5 or more,  
round up in the given place.

81 rounds to 80. 85 rounds to 90.

Round each number below to the tens place.

$26 \quad \underline{30}$

$11 \quad \underline{10}$

$84 \quad \underline{80}$

$54 \quad \underline{50}$

$75 \quad \underline{80}$

$59 \quad \underline{60}$

$44 \quad \underline{40}$

$91 \quad \underline{90}$

$31 \quad \underline{30}$

$71 \quad \underline{70}$

$62 \quad \underline{60}$

$23 \quad \underline{20}$

Round each number below to the hundreds place.

$115 \quad \underline{100}$

$131 \quad \underline{100}$

$451 \quad \underline{500}$

$134 \quad \underline{100}$

$512 \quad \underline{500}$

$847 \quad \underline{800}$

$324 \quad \underline{300}$

$754 \quad \underline{800}$

$310 \quad \underline{300}$

$654 \quad \underline{700}$

$487 \quad \underline{500}$

$311 \quad \underline{300}$

Round each number below to the underlined place.

$\underline{4}57 \quad \underline{460}$

$3\underline{2}4 \quad \underline{320}$

$5\underline{1}2 \quad \underline{510}$

$3\underline{8}7 \quad \underline{390}$

$\underline{8}64 \quad \underline{900}$

$5\underline{7}4 \quad \underline{600}$

$1\underline{0}3 \quad \underline{100}$

$\underline{6}01 \quad \underline{600}$

$1\underline{2}6 \quad \underline{130}$

$\underline{8}97 \quad \underline{900}$

$\underline{5}54 \quad \underline{600}$

$7\underline{6}1 \quad \underline{760}$
