

# Swing Count

Use repeated addition and multiplication to find the answer to each word problem.

## Example:

For 6 holes, Larry hit the ball 3 times.  
For 4 of the holes, he hit the ball 2  
times. How many times did he hit  
the ball?

**Step 1:**

$$6 + 6 + 6 = 18$$
$$\text{or } 6 \times 3 = 18$$

**Step 2:**

$$4 + 4 = 8$$
$$\text{or } 4 \times 2 = 8$$

**Step 3:**

$$\begin{array}{r} 18 \\ + 8 \\ \hline 26 \end{array}$$

## Answers

1. For 5 holes, Larry hit the ball 7 times. For 7 of the holes, he hit the ball 8 times. How many times did he hit the ball?

**Step 1:**

$$7 + 7 + 7 + 7 + 7 = 35$$

$$\text{or } 7 \times 5 = 35$$

**Step 2:**

$$8 + 8 + 8 + 8 + 8 + 8$$
$$+ 8 = 56$$

$$\text{or } 7 \times 8 = 56$$

**Step 3:**

$$\begin{array}{r} 35 \\ + 56 \\ \hline 91 \end{array}$$

2. For 2 holes, Larry hit the ball 3 times. For 4 of the holes, he hit the ball 5 times. How many times did he hit the ball?

**Step 1:**

$$3 + 3 = 6$$

$$\text{or } 2 \times 3 = 6$$

**Step 2:**

$$5 + 5 + 5 + 5 = 20$$

$$\text{or } 4 \times 5 = 20$$

**Step 3:**

$$\begin{array}{r} 6 \\ + 20 \\ \hline 26 \end{array}$$

# Swing Count

## Answers

3. For 6 holes, Larry hit the ball 6 times. For 3 of the holes, he hit the ball 8 times. How many times did he hit the ball?

Step 1:

$$\underline{6+6+6+6+6+6=36}$$

or  $\underline{6 \times 6 = 36}$

Step 2:

$$\underline{8+8+8=24}$$

or  $\underline{8 \times 3 = 24}$

Step 3:

$$\underline{66}$$

$$+ \underline{24}$$

$$\underline{90}$$

4. For 1 hole, Larry hit the ball 2 times. For 3 of the holes, he hit the ball 9 times. How many times did he hit the ball?

Step 1:

$$\underline{1+1=2}$$

or  $\underline{2 \times 1 = 2}$

Step 2:

$$\underline{9+9+9=27}$$

or  $\underline{9 \times 3 = 27}$

Step 3:

$$\underline{27}$$

$$+ \underline{2}$$

$$\underline{29}$$

5. For 7 holes, Larry hit the ball 10 times. For 4 of the holes, he hit the ball 6 times. How many times did he hit the ball?

Step 1:

$$\underline{10+10+10+10+10+10+10=70}$$

or  $\underline{10 \times 7 = 70}$

Step 2:

$$\underline{6+6+6+6=24}$$

or  $\underline{6 \times 4 = 24}$

Step 3:

$$\underline{70}$$

$$+ \underline{24}$$

$$\underline{94}$$
