

Name _____

Date _____

Holiday Shopping 1

Help buy presents for others this holiday season!

ANSWER KEY

Answer the questions using the bookshelf filled with toys.

1. How much will you spend if you buy the doctor's kit and the blocks for a friend?

$$\$12 + \$5 = \$17$$

2. How much more money does the dinosaur cost than the unicorn?

$$\$15 - \$10 = \$5. \text{ The dinosaur costs } \$5 \text{ more than the unicorn.}$$

3. What three different things can you buy to use all of your \$17?

$$\text{blocks } \$5 + \text{skates } \$8 + \text{teddy bear } \$4 = \$17$$

$$\text{duck } \$5 + \text{skates } \$8 + \text{teddy bear } \$4 = \$17$$

$$\text{hat } \$7 + \text{volleyball } \$6 + \text{teddy bear } \$4 = \$17$$

$$\text{blocks } \$5 + \text{duck } \$5 + \text{hat } \$7 = \$17$$

Students can also subtract each object from \$17 to determine their three objects.

4. Share your answers with a partner. Discuss the operations (addition or subtraction) you used. Then tell how you know you have the right answer.

Student answers will vary.
