

# ICY FACT FAMILIES

Fill in the missing numbers in the addition and subtraction problems. Then finish the fact families by writing the missing numbers.

A diagram showing a fact family for the number 10. It consists of four light blue, irregular shapes arranged in a circle. The top-left shape contains the equation  $1 + 9 = \underline{10}$ . The top-right shape contains  $9 + 1 = \underline{10}$ . The bottom-left shape contains  $10 - 1 = \underline{9}$ . The bottom-right shape contains  $10 - \underline{9} = 1$ . In the center, the number 10 is in a pink rounded square, with 1 and 9 in smaller pink rounded squares below it.

$1 + 9 = \underline{10}$

$9 + 1 = \underline{10}$

10

1 9

$10 - 1 = \underline{9}$

$10 - \underline{9} = 1$

---

A diagram showing a fact family for the number 8. It consists of four light blue, irregular shapes arranged in a circle. The top-left shape contains the equation  $6 + 2 = \underline{8}$ . The top-right shape contains  $2 + \underline{6} = 8$ . The bottom-left shape contains  $8 - 6 = \underline{2}$ . The bottom-right shape contains  $8 - \underline{2} = 6$ . In the center, the number 8 is in a pink rounded square, with 2 and 6 in smaller pink rounded squares below it.

$6 + 2 = \underline{8}$

$2 + \underline{6} = 8$

8

2 6

$8 - 6 = \underline{2}$

$8 - \underline{2} = 6$

$$4 + 3 = \underline{7}$$

$$3 + \underline{4} = 7$$

7

3

4

$$7 - 4 = \underline{3}$$

$$7 - \underline{3} = 4$$

$$3 + 2 = \underline{5}$$

$$2 + \underline{3} = 5$$

5

2

3

$$5 - 3 = \underline{2}$$

$$5 - \underline{2} = 3$$
