Date _____

ANSWERS Identifying Common Adjectives

Adjectives are descriptive words that modify nouns (a person, place, animal, thing, or idea).

Example: The blue whale is the largest animal in the world.

(ADJECTIVE)

(ADJECTIVE)

Part 1: Circle the adjective in each set of words.

- | | | |
|---------------|--------|-----------|
| 1. morning | run | huge |
| 2. slowest | turtle | banana |
| 3. understand | table | brown |
| 4. sharp | woman | glass |
| 5. train | fast | the |
| 6. crocodile | bite | dangerous |

Part 2: Underline the adjective in each sentence.

1. The cheetah is the fastest mammal on land.
2. They use their sharp claws to climb trees.
3. A jaguar has an extremely strong jaw.
4. The stick insect is the longest insect in the world.

Part 3: Choose an adjective from the word bank to complete the sentences.

Adjective Word Bank
