MULTIPLYING BY THREE

Multiply the problems below to find the total number of chocolate chips.

EXAMPLE: There are three cookies. Each cookie has two chocolate chips. How many chocolate chips in all?

3 GROUPS OF 2 CHOCOLATE CHIPS = $3 \times 2 = 6$

$$\begin{array}{r} \underline{3} \text{ groups of } \underline{4} \\ \underline{3} \times \underline{4} \\ \underline{12} \text{ total chips} \end{array}$$

$$\begin{array}{r} \underline{3} \text{ groups of } \underline{5} \\ \underline{3} \times \underline{5} \\ \underline{15} \text{ total chips} \end{array}$$

$$\begin{array}{r} \underline{3} \text{ groups of } \underline{3} \\ \underline{3} \times \underline{3} \\ \underline{9} \text{ total chips} \end{array}$$

$$\begin{array}{r} \underline{3} \text{ groups of } \underline{1} \\ \underline{3} \times \underline{1} \\ \underline{3} \text{ total chips} \end{array}$$

$$\begin{array}{r} \underline{3} \text{ groups of } \underline{7} \\ \underline{3} \times \underline{7} \\ \underline{21} \text{ total chips} \end{array}$$

$$\begin{array}{r} \underline{3} \text{ groups of } \underline{8} \\ \underline{3} \times \underline{8} \\ \underline{24} \text{ total chips} \end{array}$$
