

Inverse Operations: Addition

(answer sheet)

Match the addition equation on the left with its inverse subtraction equation on the right.

$11 + 12 = 23$	$24 - 8 = 16$
$10 + 15 = 25$	$23 - 14 = 9$
$9 + 14 = 23$	$22 - 10 = 12$
$11 + 7 = 18$	$23 - 12 = 11$
$16 + 8 = 24$	$18 - 7 = 11$
$12 + 10 = 22$	$25 - 15 = 10$

Complete the addition problems and then write out its inverse equations.

- 1.) $14 + 12 = 26$ $26 - 12 = 14$ and $26 - 14 = 12$
- 2.) $11 + 15 = 26$ $26 - 15 = 11$ and $26 - 11 = 15$
- 3.) $12 + 16 = 28$ $28 - 16 = 12$ and $28 - 12 = 16$
- 4.) $13 + 18 = 31$ $31 - 18 = 13$ and $31 - 13 = 18$
- 5.) $10 + 13 = 23$ $23 - 13 = 10$ and $23 - 10 = 13$
