

LATTICE MULTIPLICATION

10 skeletons went prowling one dark night! They each frightened 26 people. How many people did they frighten?

HINT: The answer is the number of bones in an adult human body!

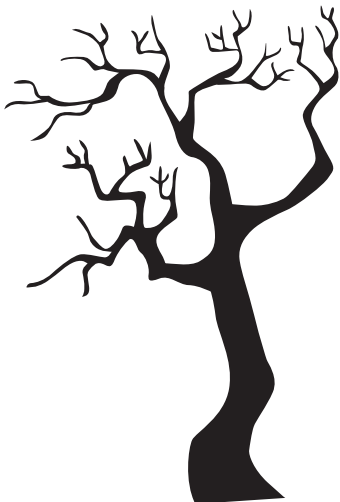

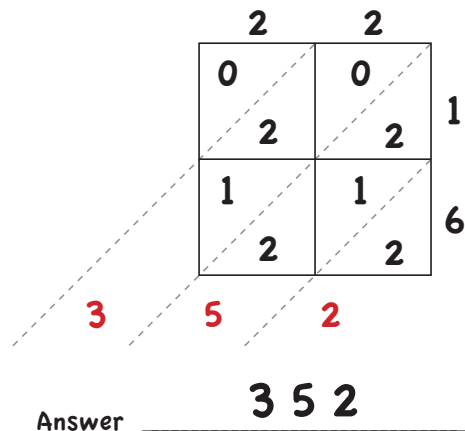

Witches' Brew Recipe:

Add to a cauldron full of zombie guts:

- 3 pairs of newt eyes
- 6 pairs of frog eyes
- 2 pairs of bat eyes

For every eye, stir the brew exactly 16 times.

How many times do you stir the brew?

In the middle of the night, there was a scary storm! Lightning struck 23 trees. Each tree lost 14 branches. How many branches were lost?
