

Logic Puzzle Fun #1

Read the questions below and write down the answers.

1. Chongan had 10 pancakes. Kaia had 2 pancakes more than Chongan, and Chloe had 3 more pancakes than Kaia. How many pancakes did Chloe have?

$$10 + 2 + 3 = 15$$

Chloe had 15 pancakes.

2. Ha-rin bought 5 candies. Françoise bought 2 fewer than Ha-rin. James bought 4 more than Françoise. How many candies did James buy?

$$5 - 2 + 4 = 7$$

James bought 7 candies.

3. Samuel read 15 books over the summer. Asher read 4 fewer books than Samuel, and Rosalie read 7 more books than Asher. How many books did Rosalie read?

$$15 - 4 + 7 = 18$$

Rosalie read 18 books over the summer.

4. Augusto had 20 peanuts. Olivia had 10 more peanuts than Augusto. Zhang Wei had 5 fewer peanuts than Olivia. How many peanuts did Zhang Wei have?

$$20 + 10 - 5 = 25$$

Zhang Wei has 25 peanuts.

5. Micah is 17 years old. Tess is 3 years younger than Micah. Roye is 5 years older than Tess. How old is Roye?

$$17 - 3 + 5 = 19$$

Roye is 19 years old.
