

## Make it Fair With Equal Groups

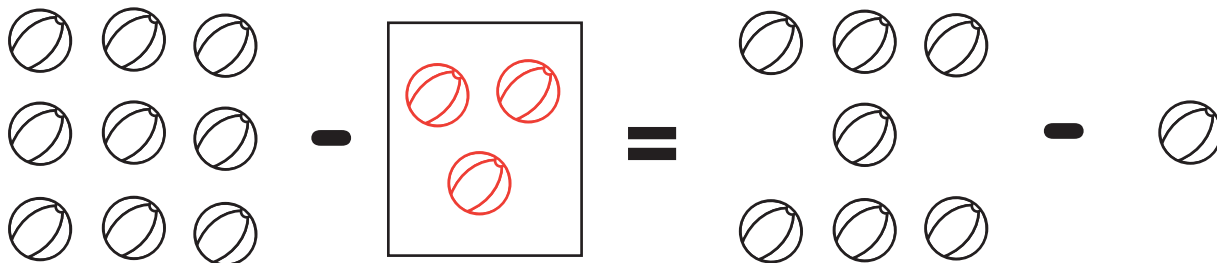

Make the groups fair! Draw the missing objects in the boxes and fill in the missing numbers to make each side of the equations the same.

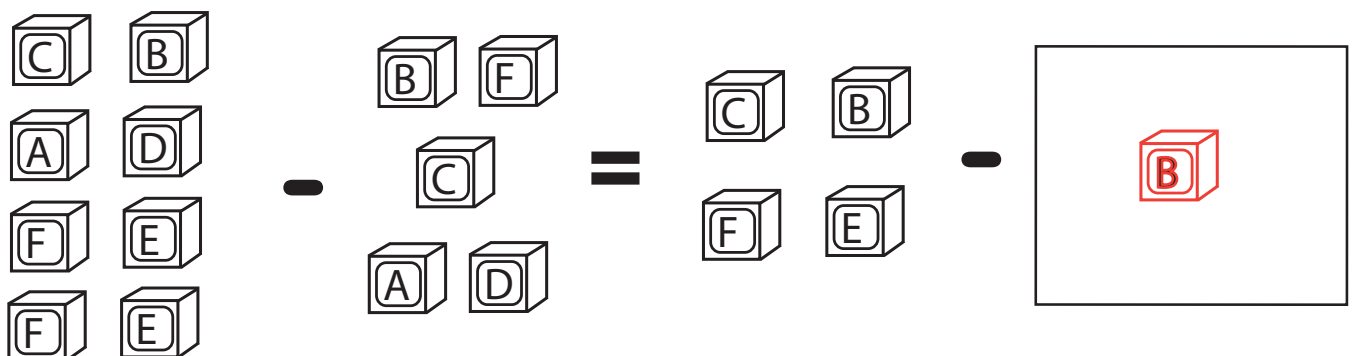

$$3 + \underline{3} = 2 + 4$$

$$6 + 2 = \underline{3} + 5$$

$$9 - \underline{3} = 7 - 1$$

$$8 - 5 = 4 - \underline{1}$$
