

Marco's Restaurant: Multi-Step Word Problems

Directions: Solve each word problem.

1. Marco is making pasta for his staff. He has one 14-ounce bag of pasta and one 27-ounce bag of pasta. He needs 60 ounces of pasta for the recipe. How many more ounces of pasta does Marco need?

19 ounces

2. Marco wants to make enough banana bread to serve 35 people. The original recipe, which serves 7 people, calls for 2 cups of flour. How much flour does Marco need to use?

10 cups

3. Marco buys 6 types of vegetables and 2 types of fruit for the restaurant. He buys 24 pounds of each type of vegetable and 13 pounds of each type of fruit. How many total pounds of food does he buy?

170 pounds

4. At the store, bottles of maple syrup are sold in packs of 2. Each pack costs \$14. Marco wants to buy 18 bottles of maple syrup. How much money will he spend?

\$126
