SUN HEATS UP LAND AND OCEAN

After reading the article on monsoons, please answer the following questions:

What are a few tips to stay safe during a monsoon? See 'Safety Tips'.

What is a monsoon, and where can you find them? Monsoons are seasonal winds caused by the earth's rotation in respect to the sun. Monsoons occur the world over - refer to 'Monsoon Seasons' for a list.

Why are monsoons important? Many people and animals depend on seasonal monsoons to water crops, fill up water reserves, and prevent draught / famine.
