

Now, you try. Read the problems and use the number lines to help you solve them.

1

Wendy pulled out 17 centimeters of ribbon to tie on a package. It wasn't enough so she pulled out 15 more centimeters of ribbon. How much ribbon does she have now to tie on the package?

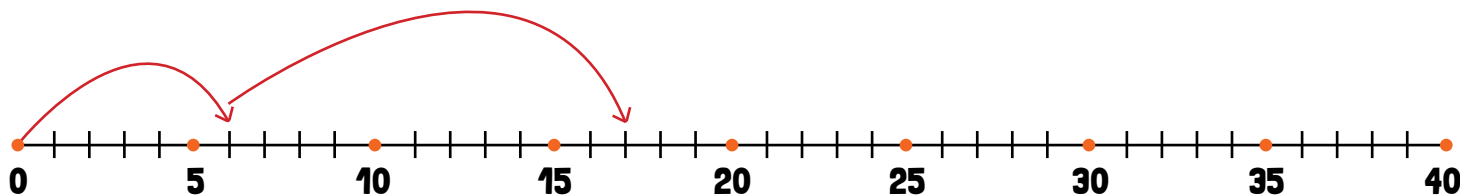

$$\boxed{17} + \boxed{15} = \boxed{32} \text{ so Wendy has } \boxed{32} \text{ cm of ribbon.}$$

2

Mark lives at one end of Main Street. Sonya lives 6 km away from Mark. Rachel lives 11 km further down the street from Sonya. How far does Rachel live from Mark?

$$\boxed{6} + \boxed{11} = \boxed{17} \text{ so Rachel lives } \boxed{17} \text{ km away from Mark.}$$
