

Name: _____

Date: _____

Answer Key

Pair the Cause and Effect

<p>Cause and effect are connected events.</p> <p>A cause is the <i>first event</i> and the effect is the <i>second event</i>, or resulting action, that happens after the cause.</p>	First:	Then:
	<p>Emilio forgot his house key at school.</p> <div style="text-align: center; margin-top: 10px;">  </div>	<p>So, he went to his friend's house while he waited for his parents to come home.</p>

Directions: Read the events. Draw a line connecting the cause to the effect. Then, copy them in the correct location on the T-chart.
