

# Point of View Graphic Organizer

Write the event (situation, conflict) in the center circle. Use the outer shapes to fill in the different perspectives on the situation (teacher, students, principal). Then, on the prongs stretching from the outer circles, write down the factors that impact that perspective - what are their cares, concerns, or motivations?

Name \_\_\_\_\_

## Reflecting and Connecting

- 1) Are there any perspectives that weren't included in this analysis?
- 2) How do differing perspectives make it harder to resolve conflict?
- 3) Understanding how someone's perspective impacts their stance might help in resolving conflict. Why?
- 4) Think about the authors of history books. Do you think they have a perspective?
