squealed  
splashing  
moo  
scratches  
tapped  
cracking  
hooting

**Directions:** Circle each example of onomatopoeia in the short story. Try to find all 10!

It was a beautiful spring morning and Kim was walking to the park with her dog, Spot. As they walked, they heard chirping birds and a rustling breeze in the trees. Kim stopped to sniff some flowers, and she noticed some buzzing bees nearby. Suddenly, she had an itchy feeling in her nose. "Achoo!" The flowers made her sneeze! She decided to let the bees have the flowers to themselves. A squirrel chattered at them as they walked by a tall tree. Spot growled and barked at the squirrel, but Kim tugged on his leash and kept walking. She could see the park just ahead. "Spot, let's go!" she shrieked. Her feet pounded against the sidewalk as she hurried toward the playground.
