## Practice with Coordinates

Roll needs help writing codes to figure out where he can find the ice cream. Write the code using coordinates ( $X, Y$ ) in the space provided.

$\mathrm{A}=\underline{(3,0)}$
$E=\underline{(6,0)}$
$\mathrm{I}=\underline{(5,5)}$
$M=(3,2)$
$\mathrm{Q}=(4,3)$
$B=\underline{(0,5)}$
$F=\underline{(1,1)}$
$\mathrm{J}=\underline{(4,4)}$
$\mathrm{N}=\underline{(1,3)}$
$C=\underline{(3,5)}$
$\mathrm{G}=(6,4)$
$\mathrm{K}=\underline{(5,1)}$
$\mathrm{O}=\underline{(0,0)}$
$D=(2,2)$
$\mathrm{H}=\underline{(2,4)}$
$\mathrm{L}=(5,3)$
$\mathrm{P}=\underline{(6,2)}$
