

PROBABILITY TOSS

Use fractions to express the probabilities of each outcome when a dart is thrown.

REMEMBER: Probability is the likelihood a given outcome will occur. It is expressed as a fraction.

ANSWERS

What is the probability that the next dart thrown hits a number that....

has a **1** in the **ten's** digit?

is a multiple of **4** ?

1/6

1/6

has a  pattern?

has a  pattern?

2/6

1/6

is less than **34** ?

has a **2** in the **ten's** digit?

4/6

2/6
