

Foodie Fractions #10

Answers

Kelly's mom is making a tuna pasta bake for a sick friend. She wants to make two batches. The first batch is for her friend to eat right away. So Kelly's mom needs to make the recipe smaller. Can you help her? The second batch is for her friend to put in the freezer for a later date. Kelly's mom wants to triple the recipe. Help her calculate the correct amounts.

Multiply each ingredient's amount by $\frac{2}{5}$ and 3.
