

Foodie Fractions #7 Answers

One of Sarah's favorite food is eggplant. So her mother is making baked, stuffed eggplant for her birthday dinner. Her mom needs to double the recipe. Can you calculate two times the recipe? Sarah's friend, Trisha, wants to try it but is afraid she doesn't like eggplant. Sarah has asked her mom to make a third of the recipe for Trisha to try it. Can you help her?

Multiply each ingredient's amount by 2 and $\frac{1}{3}$.

<i>Measurement</i>	<i>x</i>	<i>2</i>	<i>1/3</i>	<i>Ingredient</i>
1		<u>2</u>	<u>1/3</u>	eggplant
3/4		<u>3/2</u> cup	<u>1/4</u> cup	ricotta cheese
1/4		<u>1/2</u> cup	<u>1/12</u> cup	Mozzarella cheese
1		<u>2</u> tbsp.	<u>1/3</u> tbsp.	fresh herbs
1/2		<u>1</u> cup	<u>1/6</u> cup	spinach
2/3		<u>4/3</u> cup	<u>2/9</u> cup	vegetables
