## Repeated Adefition

You can use repeated addition to find the total number of objects in equal groups. For example, look at this problem.

Since there are 3 equal groups of 2 , the repeated addition sentence is: $2+2+2=6$.
Use repeated addition to find the total number of objects in each question below.

$=3+3+3=9$

= $9+9+9=27$

$$
=\begin{aligned}
& 2+2+2+2+ \\
& 2+2+2=14
\end{aligned}
$$

$=3+3+3+3=12$

$=6+6=12$
