

Subtract and Compare

Name: _____ Date: _____

Subtract to find the difference. Write your answer in the box.

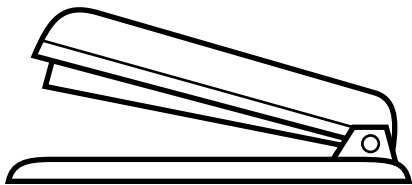

Example: This computer can be measured two ways:

Length: **17 inches** OR **14 paper clips**

How many more inches than paper clips are needed to measure it?

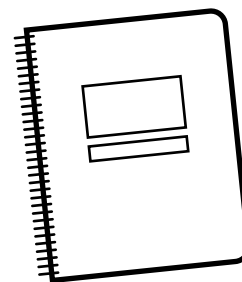

Think: **17 - 14 = 3** 3 inches

1. Length: **9 inches** OR **7 paper clips**.

How many more inches than paper clips are needed to measure it?

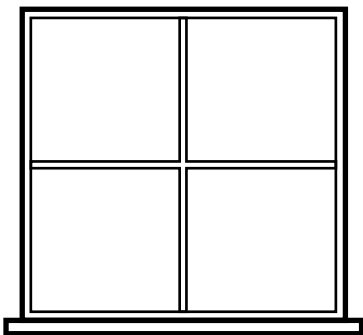

2 inches

2. Length: **27 centimeters** OR **9 paper clips**.

How many more centimeters than paper clips are needed to measure it?

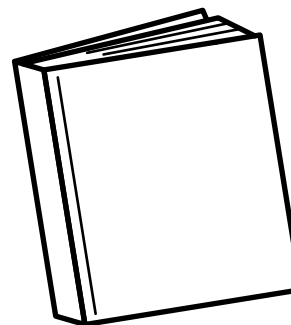

18 centimeters

3. Length: **38 inches** OR **31 paper clips**.

How many more inches than paper clips are needed to measure it?

7 inches

4. Length: **18 centimeters** OR **6 paper clips**.

How many more centimeters than paper clips are needed to measure it?

12 centimeters

5. Are the paper clips in these problems smaller or larger than one inch? (circle one)

smaller

larger
