4. Based on the passages, what can you infer about Edmund's thoughts about the Witch after their first and second meetings? Describe how his thoughts are similar and different between the two meetings. After the first meeting, Edmund likely thinks the Witch is good and kind because she offers him food, drink, and warmth from the cold. After their second meeting, Edmund likely thinks the Witch is cruel because she calls him a brat and a fool, and she only gives him stale bread and water. After both meetings, Edmund likely thinks the Witch is powerful because she can create food and drink with a potion, even though she chooses not to in their second meeting.
