

# Thanksgiving Simple Addition

answers

Add the pictures and write the answer. Then color the pictures.

A math problem involving pies. On the left, there are two groups of two pies each, followed by a plus sign, and then another two groups of two pies each. To the right of the plus sign is an equals sign followed by the number 12, which is written on a three-line grid.

$$2 + 2 = 4$$

A math problem involving corn cobs. On the left, there are two groups of two corn cobs each, followed by a plus sign, and then one group of two corn cobs. To the right of the plus sign is an equals sign followed by the number 5, which is written on a three-line grid.

$$2 + 2 = 4$$

A math problem involving circles. On the left, there are three groups of three circles each, followed by a plus sign, and then two groups of three circles each. To the right of the plus sign is an equals sign followed by the number 15, which is written on a three-line grid.

$$3 + 3 = 6$$
