

20. IN THE MIX

Baking soda and salt will dissolve in water.

21. RADICAL RAYS

foot

knee

neck

hand

22. TIMING IS EVERYTHING

- Because the Earth makes one entire trip around the Sun once every 365 days, Tim will wear a plaid shirt once a year.
- Because the Moon makes one entire trip around the Earth roughly once every month (27 days, 7 hours, and 48 minutes), Tim will wear a red hat about once a month—or 13 times a year.
- Because the Earth rotates on its axis once a day, Tim wears a new pair of blue underwear every day—or 365 times every year.
