

Using Addition to Subtract #2

Find each difference using a related addition fact. Fill in the blanks.

1 Find $5 - 4$.
Think $4 + \underline{1} = 5$.
So, $5 - 4 = \underline{1}$.

2 Find $9 - 6$.
Think $6 + \underline{3} = 9$.
So, $9 - 6 = \underline{3}$.

3 Find $7 - 2$.
Think $2 + \underline{5} = 7$.
So, $7 - 2 = \underline{5}$.

4 Find $13 - 8$.
Think $8 + \underline{5} = 13$.
So, $13 - 8 = \underline{5}$.

5 Find $15 - 7$.
Think $7 + \underline{8} = 15$.
So, $15 - 7 = \underline{8}$.

6 Find $16 - 5$.
Think $5 + \underline{11} = 16$.
So, $16 - 5 = \underline{11}$.

7 Find $18 - 9$.
Think $9 + \underline{9} = 18$.
So, $18 - 9 = \underline{9}$.

8 Find $19 - 12$.
Think $12 + \underline{7} = 19$.
So, $19 - 12 = \underline{7}$.
