

Warm and Cool Colors

Cool colors:
green, blue and **violet**

Warm colors:
red, orange
and **yellow**

Have you ever tried to take a color's temperature? Colors won't give you a reading on a thermometer, but colors can make us feel like they are warm or cool.

How many cool-colored things are on this page? 9

How many warm-colored things are on this page? 5

Circle your answer
