

**Answer Key**

**Who Got the Pumpkin?**

In the Pumpkin Race game, players try to get to 100, or a pumpkin, faster than their opponent.

Derek and Luna played the Pumpkin Race game yesterday. This is what their game board looks like so far:

<b>Derek</b>	Pumpkins (Hundreds)	Broomsticks (Tens)	Candies (Ones)
<b>Luna</b>	Pumpkins (Hundreds)	Broomsticks (Tens)	Candies (Ones)

1. Circle who is closer to 100.

**Derek (78)**      **Luna (80)**

Next, they rolled these numbers →

2. Circle who got the pumpkin first.

<b>Derek's Total: 24</b>	<b>Luna's Total: 18</b>

**Derek**

$$\begin{array}{r} 78 \\ + 24 \\ \hline 102 \end{array}$$

**Luna**

$$\begin{array}{r} 80 \\ + 18 \\ \hline 98 \end{array}$$
