

Name _____ Date Answer Key

WRITE EQUIVALENT RATIOS #1

Write an equivalent ratio for each of the following ratios. *Answers may vary.*

$1:5 = \underline{2} : \underline{10}$

$7:9 = \underline{14} : \underline{18}$

$10:6 = \underline{30} : \underline{18}$

$3:4 = \underline{9} : \underline{12}$

$8:2 = \underline{16} : \underline{4}$

$12:8 = \underline{6} : \underline{4}$

$9:15 = \underline{3} : \underline{5}$

$5:12 = \underline{20} : \underline{48}$

$6:14 = \underline{3} : \underline{7}$

$11:7 = \underline{22} : \underline{14}$

$2:4 = \underline{1} : \underline{2}$

$9:12 = \underline{18} : \underline{24}$

Fill in the missing number to complete each equivalent ratio.

$5:8 = \underline{15} : 24$	$10:4 = 50: \underline{20}$	$7:12 = \underline{21} : 36$
$1:6 = \underline{8} : 48$	$2:9 = 14: \underline{63}$	$5:30 = \underline{1} : 6$
$21:24 = 7: \underline{8}$	$30:9 = \underline{10} : 3$	$8:1 = 64: \underline{8}$
$3:12 = 1: \underline{4}$	$33:15 = 11: \underline{5}$	$2:11 = 8: \underline{44}$
$10:16 = \underline{5} : 8$	$15:6 = 30: \underline{12}$	$3:2 = \underline{27} : 18$
