

WRITE EQUIVALENT RATIOS #2

Write an equivalent ratio for each of the following ratios. **Answers may vary.**

$2:3 = \underline{4} : \underline{6}$

$4:7 = \underline{8} : \underline{14}$

$9:6 = \underline{3} : \underline{2}$

$12:3 = \underline{24} : \underline{6}$

$8:9 = \underline{16} : \underline{18}$

$15:20 = \underline{3} : \underline{4}$

$11:5 = \underline{22} : \underline{10}$

$6:12 = \underline{1} : \underline{2}$

$7:3 = \underline{14} : \underline{6}$

$16:6 = \underline{8} : \underline{3}$

$5:9 = \underline{15} : \underline{27}$

$8:20 = \underline{2} : \underline{5}$

Fill in the missing number to complete each equivalent ratio.

$11:3 = \underline{44} : 12$

$4:5 = 20 : \underline{25}$

$2:8 = 1 : \underline{4}$

$32:24 = \underline{4} : 3$

$3:7 = 15 : \underline{35}$

$9:21 = 3 : \underline{7}$

$25:40 = \underline{5} : 8$

$26:22 = \underline{13} : 11$

$12:5 = \underline{36} : 15$

$6:54 = 1 : \underline{9}$

$81:63 = \underline{9} : 7$

$1:7 = \underline{8} : 56$

$14:30 = \underline{7} : 15$

$40:24 = 5 : \underline{3}$

$1:4 = \underline{12} : 48$
