

# WINTER FUN BANNER!

Make your banner any length by printing as many pages as you like. The more pages, the longer the banner! Use thicker paper for best results.

**1** After the pieces have been colored, ask a grown-up to help cut and fold the shapes. You will need string, ribbon or yarn, and some tape.

To figure out how much yarn you will need, just line up all the pieces with spaces in between, then measure and add a little extra on each end for tying or taping.

Tape each triangle to your piece of yarn securely. Make sure the piece doesn't slide around.

**3** Have a grown-up help tape or pin your banner up in your room, across a big window, or anywhere there's space for it!

Fold on the dotted lines.

Print on **thicker paper** for best results.
